-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

Claim Objections

1. Claims 134-135 are objected to because of the following informalities: On page 48 claims "134" and "135" have been recited twice. It is suggested that the claims in this application be renumbered consecutively as per 37 CFR 1.75. Appropriate correction is required.

2. I. Claims 1-135 (1st recited claims 134 & 135) are drawn to a protective laminated, breathable pad, classified in class 2, subclass 455.

II. Claims 134-151 (2nd recited claims 134 and 135) are drawn to a shell having a plurality of discrete panels, classified in class 2, subclass 44.

III. Claim 152 is drawn to a body shell being colored, classified in class 2, subclass 456.

IV. Claim 153 is drawn to a shoulder shell having a spring, classified in class 2, subclass 459.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are unrelated to one another. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I, II, III and IV are unrelated, since invention I pertains to a laminated pad, while invention II pertains to a shell having separate panels, invention III pertains to a colored shell and invention IV pertains to a shoulder shell having a spring.

4. A telephone call was made to Mr. Paul Schwarz to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 3765

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tejash Patel whose telephone number is (703) 306-9184. The fax phone number for this group is (703) 305-3580.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0861.
